EU and the Economy

Q: To what extent does the EU contribute to the economy, jobs, growth and wealth in your country?

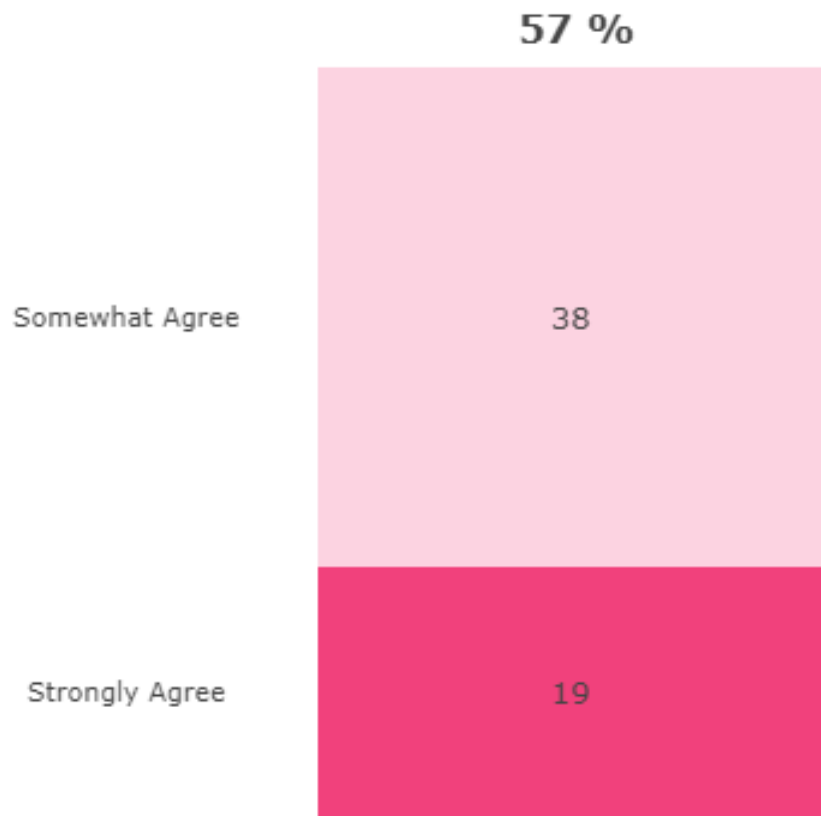

Issue Priorities for Europe

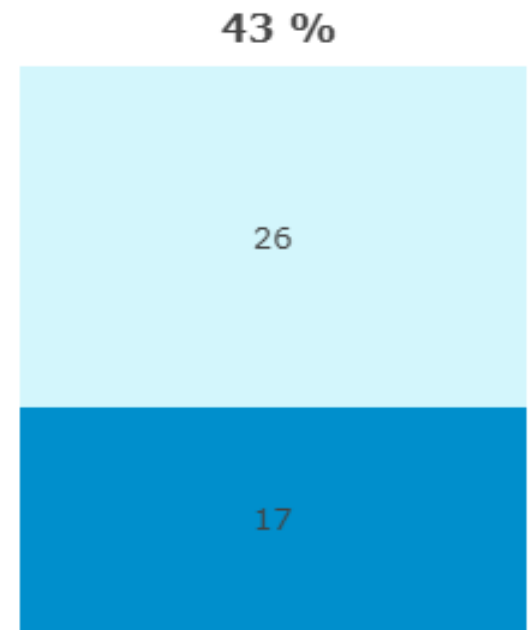

Q: Which issues do you think the EU needs to address immediately?

EU and Rule of Law

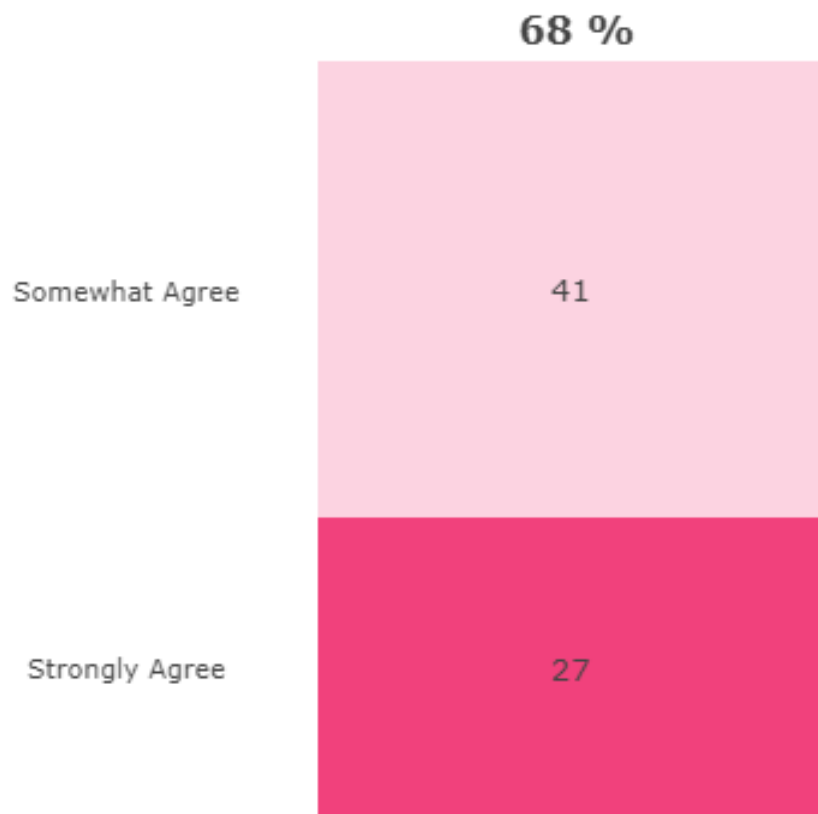

The EU should take stronger action against EU member states that violate the rule of law principles

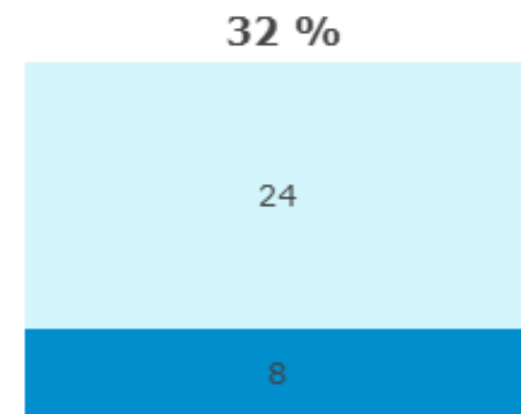

The EU should not interfere in national politics

EU and Climate Action

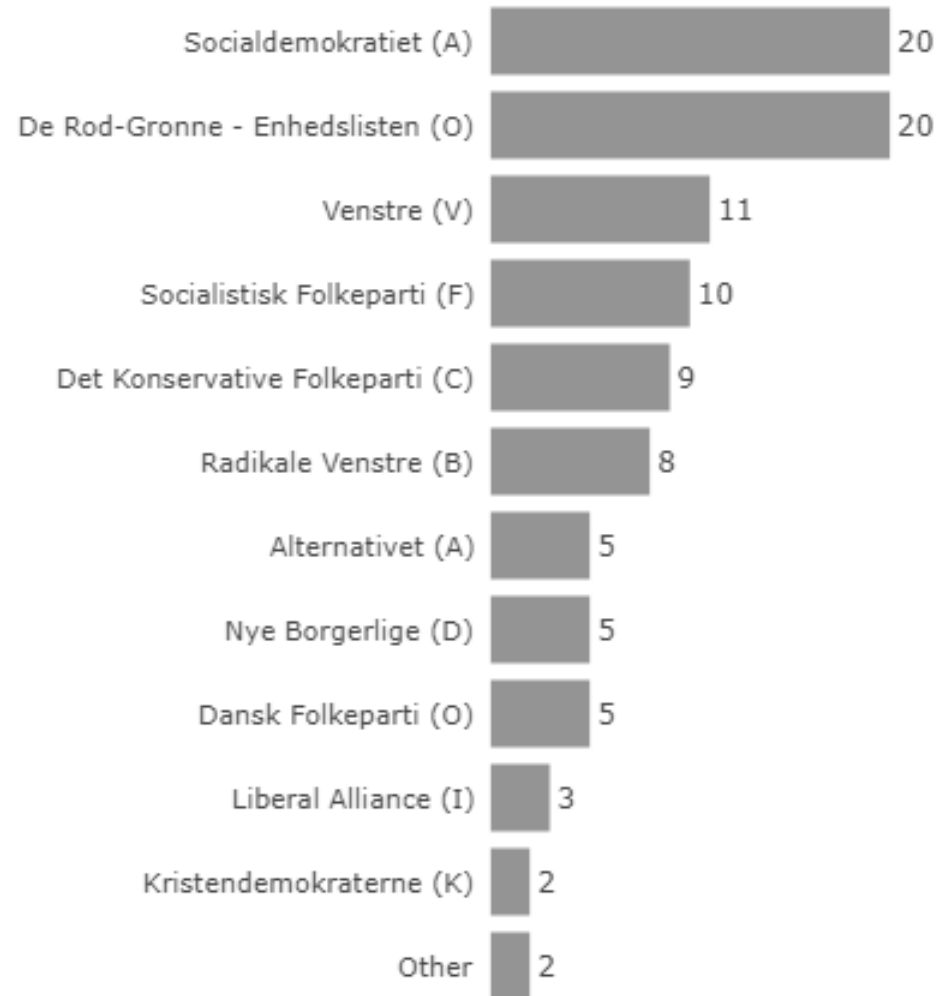

The EU should play a bigger role in solving climate change

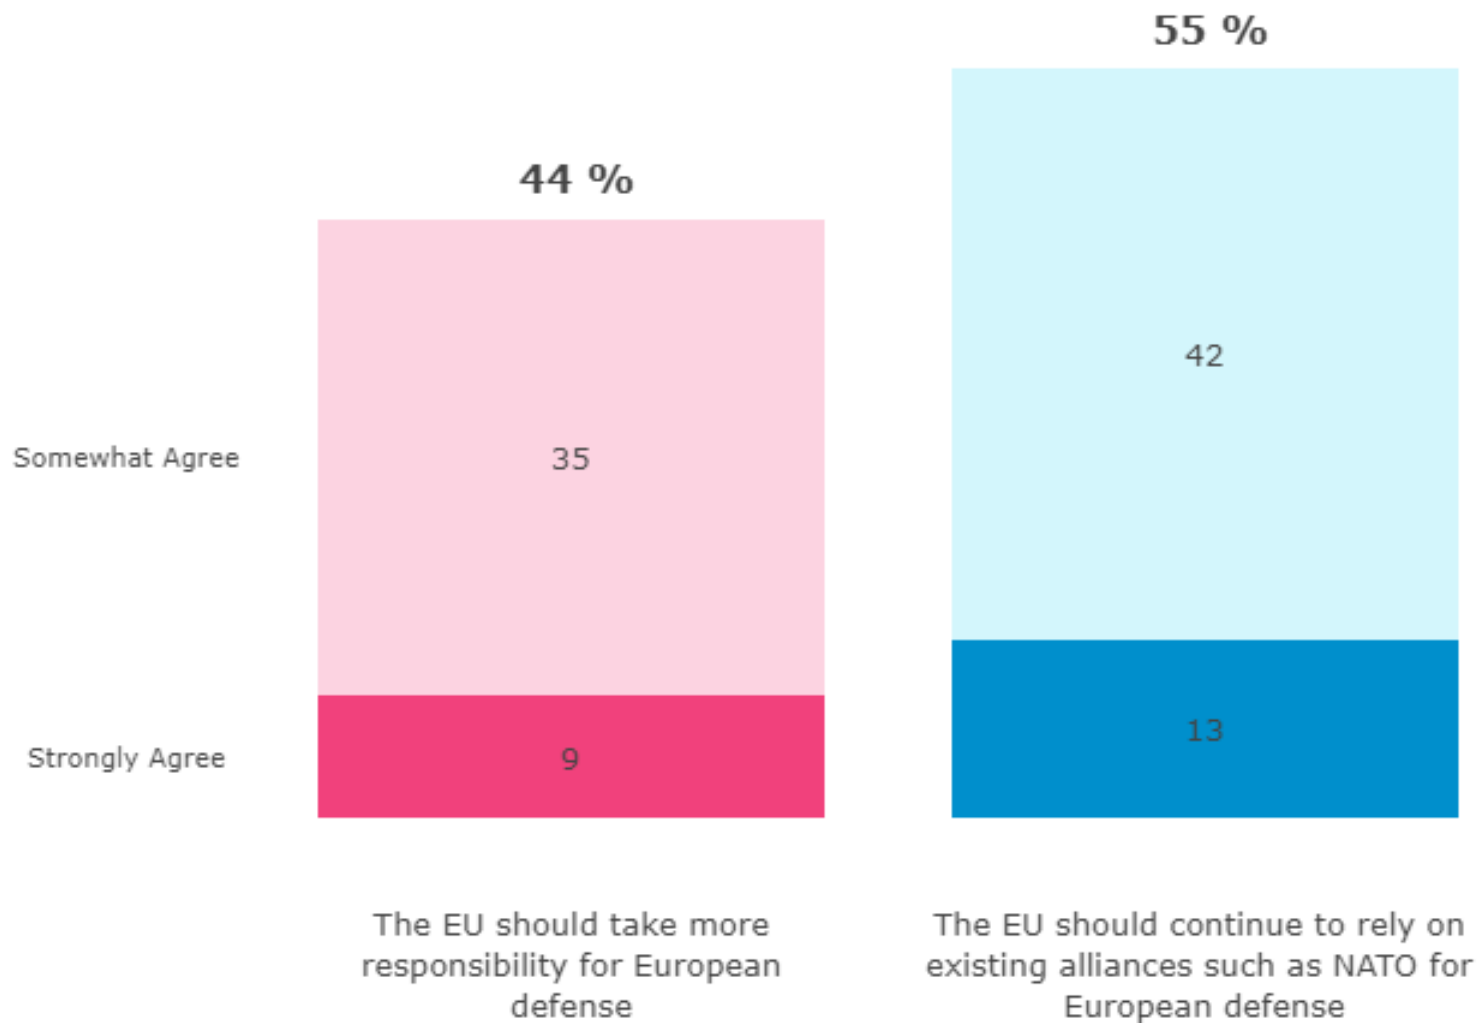

The EU should leave it to member states to find the right approach to solve climate change

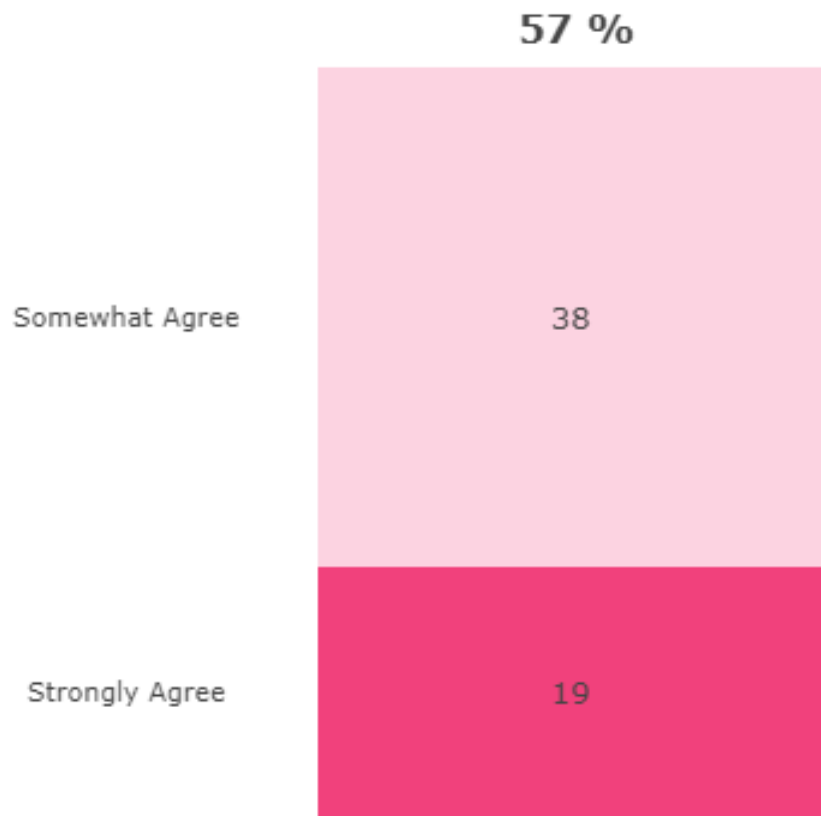

Which party has the best policy for climate action?

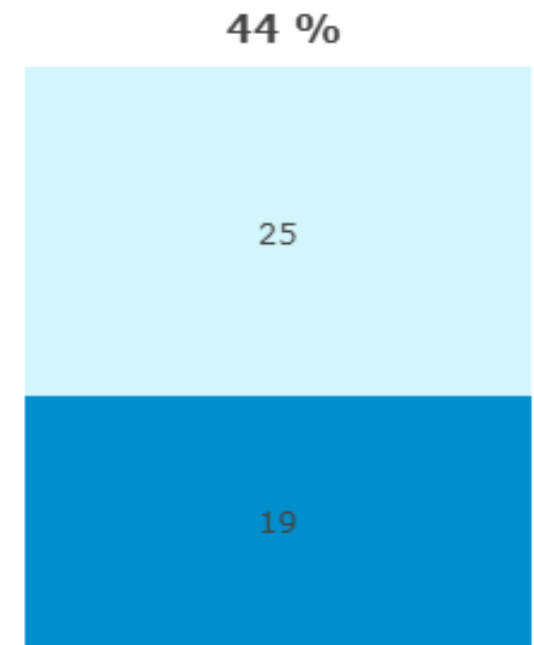

EU and Defense

Defense

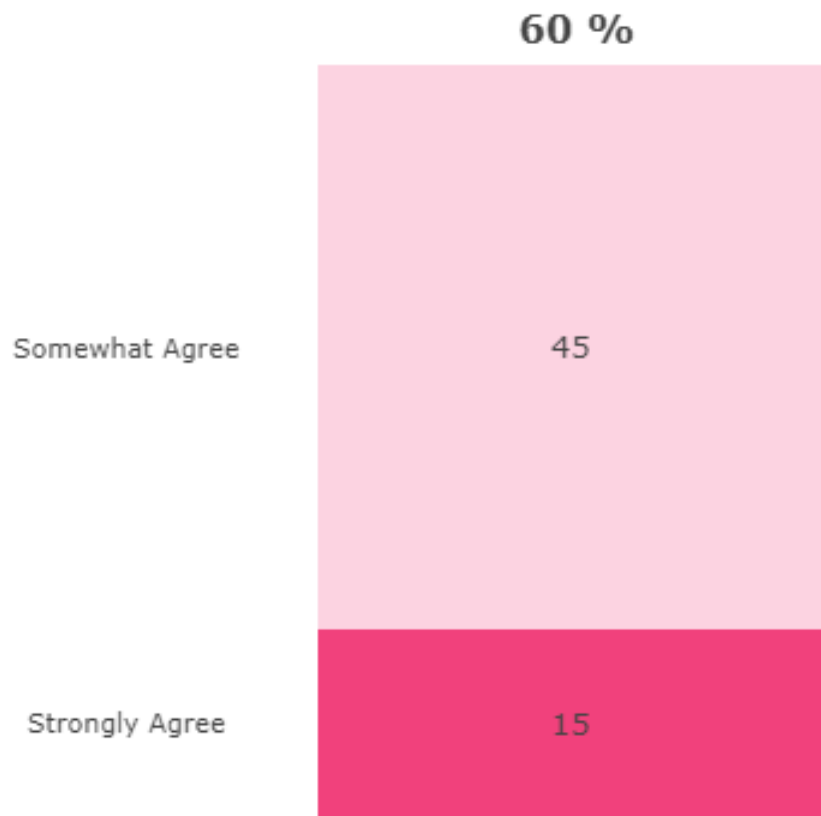

Denmark should take full part in EU policies regarding defense and security

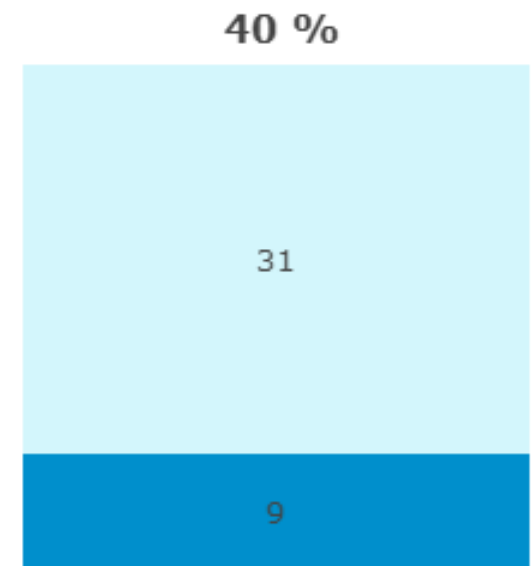

Denmark should maintain its opt-out regarding EU policies on defense and security

EU and Regulation

The EU should strengthen its regulation of social media and tech companies

Existing rules such as the GDPR are sufficient to regulate social media and tech companies
